

Anjana Gosain is an advocate having a practice of more than 40 years and has been regularly appearing at the Supreme Court and various High Courts of India. She completed her law from Faculty of Law, Delhi University and has completed a Management Course in Travel and Tourism from Bhartiya Vidya Bhawan.

She enjoys a unique position of being a lawyer with qualification in Travel and Tourism which has enabled her to represent the Ministry of Culture and many travel and tourism related organizations including IATO and ITDC for the past 25 years and has been a key person during policy revisions and has drafted the policies for IATO, Ministry of Culture and other organizations. She has also been a guest speaker at IITM. She has extensive experience in handling significant matters and has many landmark judgments relating to relating to selection of tourist guides and photographers at centrally protected monuments to her credit. She has represented IATO at various forums including Supreme Court and High Court and is responsible for the key changes in government policies relating to travel and tourism.

She also has been handling various consumer, contract and HR related matters and has drafted various agreements and contracts for PSUs, private companies and organizations. She is also on the Sexual Harassment Committee of many organizations and has organized awareness workshops in relation to Prevention of Sexual Harassment at Workplace Act. Apart from this, her specialization is in aviation law and she represents Ministry of Civil Aviation, DGCA and Airports Authority of India in high-stake matters in constitutional, contract related and commercial matters.

Her zeal in law has enabled her to argue matters of public importance, however, her passion is towards the environment. She is also the Chief Functionary Officer of Tiger Trust, a Delhi Based Non-Profit Organization dedicated to protecting and conserving the environment by training forest officers and conducting awareness programs to sensitize children on saving the environment.
