MICE Tourism is one of the key revenue spinners of travel and tourism economy in modern times. UNWTO recognizes the inherent strength of MICE industry and has been instrumental in identifying and popularizing MICE destinations across the world. As per ICCA rankings, India has improved its position substantially in the recent times, when it hosted 175 meetings in 2017 compared to 143 for the previous year, thus leaping and improving its position by seven positions from 31 in last year. This report is based on the basis of extensive secondary research along with interviewing more than 700 stakeholders spread across 12 MICE destinations.

We, Majestic MRSS Ltd are expressing sincere gratitude to Shri Yogendra Tripathi, IAS, Secretary (Tourism) Ministry of Tourism, Government of India & Shri Suman Billa, IAS, Joint Secretary (Tourism) Ministry of Tourism, Government of India for entrusting this prestigious study. This study has been immensely benefitted from the technical inputs from Shri Vikas Rustagi, Joint Director General, Smt. Madhu Dubey, Executive Director, ICPB, Shri Chander Mansharamani, Vice Chairman, ICPB and A.S.Saxena, Asst. Director General & Smt. Smt. Mini Prasanna Kumar, Director (MR) without their active participation the study could not be accomplished as per the research mandate & unable to achieve true insight towards MICE Tourism in India.

Also, we are grateful to Shri P.C. Cyriac, Addl. Director General (MR) for extending all possible support and co-operation during the execution of the assignment. We would also like to thank Ms. Asqa Ilahi (Dy. Director) & Shri S.K. Mohanta for providing us necessary guidance and necessary support.

Last but not the least; Majestic MRSS Ltd. is thankful all respondents interviewed during the execution of this assignment, foreign tourism board, industry association etc. for continuous co-operation and support.

Executive Summary

MICE Tourism continues to be one of the major revenue spinners of modern times. Not only does this bring into play the various aspects of tourism into one solid concept but also allows the opportunity for the host city to develop its economy in leaps and bounds. UNWTO recognizes the inherent strength of the industry and has been instrumental in identifying and popularizing MICE destinations from across the world. As per ICCA rankings, India has improved its position substantially in the recent times, when it hosted 175 meetings in 2017 compared to 143 for the previous year, thus leaping and improving its position by seven positions. A vivid analysis of 5-year data indicated that India has in fact reclaimed its position, which it maintained in the year 2013, albeit with a hosting of lesser number of meetings. India still is far off in terms number of meetings it hosts in spite of having reasonable MICE infrastructure across the 12 major destinations.

The aim of this study is to understand the current market dynamics of the MICE in India in terms various segment specific values (meeting, incentive, conference & exhibitions) and to evaluate the role of ICPB in promoting MICE tourism thereby suggesting the structure keeping in mind the world best practices followed. The current study has been carried out using extensive secondary research along with interviewing more than 700 stakeholders spread across 12 MICE destinations to arrive the study objective.

Based on extensive secondary research coupled with information collected across more than 700 odd respondents spread across 12 MICE destination in India, the highlights of the study are stated below:

- There is immense opportunity to grow but lagging due to inadequate marketing and communication by stakeholders of MICE India, which needs to be realigned.
- India has sound infrastructure in terms of hosting MICE events but there is a need for proper co-ordination and cohesiveness across different stakeholders for seamless implementation. The good news is the fact that India is identifying and adding cities wherein MICE can be a top draw to boost tourism and pep up economy of the particular location. These cities already have a good infrastructure as far as hosting conferences are concerned and/ or in the process of development. What needs to be done is to improve upon the connectivity, up skill people, empower local level organizations and grow the ecosystem in a focused way. As per latest statistics available from ICCA, the following cities of India has contributed immensely in improving rankings for India
 - New Delhi – grew by CAGR of 13.9% for a 5 year period
 - Mumbai – grew by CAGR of 3.7% for a 5 year period
 - Bangalore – grew by CAGR of 14.5% for a 4 year period

- Hyderabad – grew by CAGR of 8 % for a 3 year period
 - Chennai - grew by CAGR of 9.3% for a 5 year period
 - Goa – grew by CAGR of 4.7% for a 5 year period
-
- The estimated Global market size for MICE is in excess of USD 808 Bn in 2017 which is going to touch down to 1200 bn in 5 years from now. The estimated market size of MICE in India is Rs37576 crores in which nearly 60% comes from MIC i.e. meeting, incentive and conference. It is also important to mention that 65% are B2B events. The estimated market size from Event is in the tune of Rs 4800 crores from space rental but it has a multiplier impact to economy in terms of accommodation, traveling, communication and advertisement, remuneration to skilled work force etc.

 - It is recommended that the concept of sustainable and exclusive MICE tourism be adopted and practiced. This is essential to understand the different situational analysis through case studies from around the world to make it a resounding success. Introduction of concept of Customized travel experiences, luxury spa sessions, rare animal sanctuaries, religious pilgrimage tours are what the foreign travelers believe in. There is enough opportunity in India to promote medical, wellness and spiritual tourism in the state. MICE destinations should be encouraged as tourism for the purpose of Meetings, Incentives, Conferences and Exhibitions are no longer limited to big cities. Major markets of inbound tourism should be targeted for this exercise.

 - The need of the hour is to promote India as one the most important MICE destination by way of revamping existing ICPB structure. The role should be more for promotion of India as MICE destination to international community and bid for the international conference with the help of experience and expert PCO / Expert of that particular field. After having a thorough review of the structure and function of the different Convention Promotion Bureaus in the world it has been emerged that most of the CPB are Government Controlled / Autonomous bodies which are professionally run by full time individuals & their roles and responsibilities are mainly to position City as prime MICE destination & work in tandem with PCO/ Expert/ Event Management companies. Respective Governments normally allot sufficient funds for marketing and communication so that they can bring more international events in the city and there is a need to inject sufficient fund at both Head office level as well as Destination office. The amount may be worked out after preparing an action plan to promote India MICE to different level.

 - The role and responsibilities of current ICPB has been enhanced and expanded. It is proposed to set up major destination specific ICPB office rather than only one ICPB office in Delhi. Now the proposed ICPB role will take India to the international community in a much bigger way. The proposed ICPB model will not only help to enhance the brand image of India but also there will be overall development of MICE destinations in India. The major role of the ICPB are:
 - Identify conference opportunities
 - Secure a local host to lead the bid and financially underwrite the bid

- Liaise with government and industry leaders to obtain support
- Develop bid strategies, prepare bid documents and presentations
- Prepare business cases, competitor analysis, preliminary budgets and risk analysis
- Coordinate site inspections for key de

As far as the constrains faced in Indian MICE industry is concerned, Lack of well-defined policies, structure of the promotion bureau, lack of Government support in pre/ post event area are the major bones of contention. On the other hand, constraints faced by ICPB in promoting the MICE Brand are due Funding Issues, lack of Manpower, Absence of Marketing and lack of bidding experience seem to dominate. Specific Guidelines needs to be drafted specifically for MICE and to be included in National Tourism Policy.

The existing financial and non-financials schemes need to relook and should be as per the industry practices. Current MDA scheme applicable only for the active members needs to re-dine in terms of both target beneficiaries as well as the amount to be given. Like other countries, there is a strong need to inject financial and Non-Financial assistance scheme so that different host associations would be interested more. The details have been discussed in the main report.

There is need to hire professionally skilled person to proposed new ICPB format in India. Also on deputation, officials in different target overseas countries need to be assigned with specific targets to generate MICE business with the help of local consultant.

A visitor should go back enriched in knowledge and with a sense of a great experience after traveling to India. New tourist destinations may be identified and further developed for offering innovative tourism products or experiences. MICE Tourism can be used as appropriate tool to make India an attractive location so that the foreign travelers may keep coming back to India repeatedly.

1) Introduction

Tourism Industry has had an immense role in shaping up economy of a nation. Whether the economy is in a state of upturn or a downturn, Tourism has continued to inspire people to travel in order to refresh themselves and in search of solace, peace and relaxation, which in turn has boosted the economic make up of a country. Serenity, Heritage, History, Culture, presence of natural resources has been a few factors, which have helped attracting tourists to a new destination since time immemorial. This has in turn boosted the demand for creation, upkeep and maintenance of tourism infrastructure, mainly in form of accommodation units and facilities and amenities. In many countries around the world, tourism continues to be the single largest contributor to the economy as it continues to attract tourists from the various nooks and crannies of the world.

Like an ever-evolving industry, tourism across the world has been a spectacle of whirlwind changes. New concepts of attracting tourists have started coming on the forefront. To add to that, increased penetration of Information Technology has made it possible to use whatever was not even comprehensible in earlier times. Carrying capacity considerations in an economic slowdown scenario has rationalized the concepts of tourism, thus, integrating / leveraging / combining a few concepts in order to present an altogether new concept. A few new concepts, which has already won accolades from the travelers, include the likes of Eco – Tourism, Sustainable Tourism, Wedding Tourism and the likes. MICE Tourism (or Tourism related to Meetings, Incentives, Conferences and Exhibitions) is one such concept, which has started gaining momentum in recent times. As per the World Tourism Organization, there will be ten billion international travelers by 2020 and it is estimated that Business travel will account for approximately 14% of all international travel. The concept of MICE (Meetings, Incentives, Conferencing and Exhibitions) tourism is the result of globalization and economic reforms. People have been gathering in the form of meetings since a very early time. The current day MICE Tourism targets the high volume travelers who travel for attaining specific professional objectives. Predominantly, B2B/ B2C events sponsored by enterprises continue to be the mainstay of such projects. However, now development organizations / NGO's / Government Agencies also play a major role in hosting such events.

The facets that have led to the increased popularity of the MICE tourism concept can be depicted in the diagram below:

a) Terms of Reference

The terms of reference for the study have been depicted in the ensuing paragraphs.

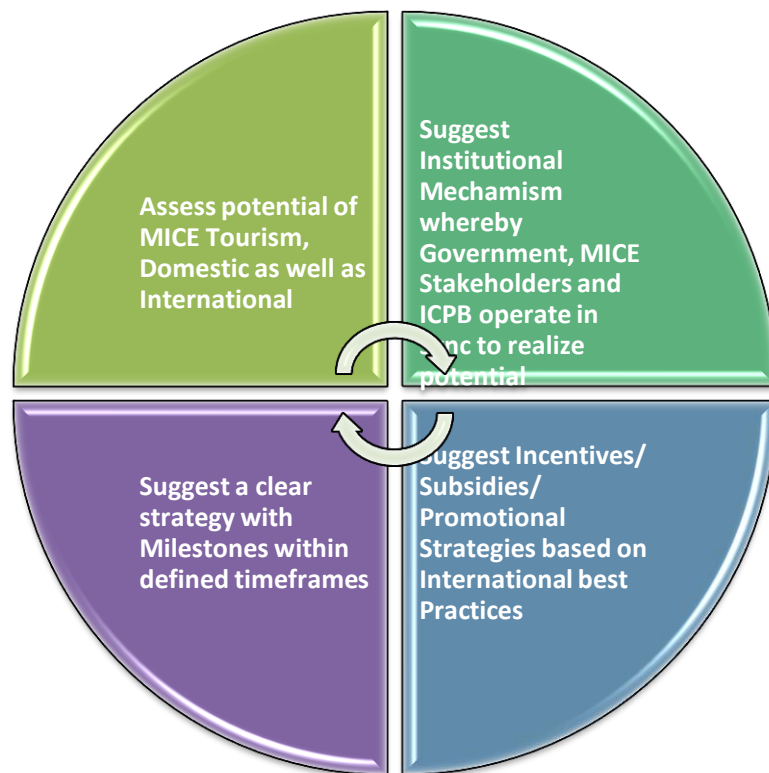

- Assess the potential of MICE segment in the domestic market and internationally.
 - Through research, to access the size of the global and domestic MICE market.
 - Evaluate economic impact of the MICE sector to the overall economy of the country.
 - Study of current MICE infrastructure available in India in terms of road, airports, railways, hotels, trained work force, venues, etc.
- To suggest institutional mechanism whereby the Government, MICE stakeholders and ICPB operate in harmony to achieve the potential assessed.
 - Propose revenue model for ICPB to sustain the Bureau’s Secretariat and undertake marketing activities.
 - Propose work force requirement of the Bureau for efficient functioning and enlarged area of activities.
- Suggest incentives / subsidies / promotional strategies based on international best practices.
 - Develop case studies (at least 3, 1 from US, 1 from Europe and 1 from South East Asia) of incentives offered by destination countries for acquiring a competitive edge at the bidding stage.
 - Assess the incentives in terms of both financial and non-financial.
 - Consider the effectiveness and desirability of subvention programs in the framework of present policies of Ministry of Tourism.(Subvention programs are offered by some bureaus as official funds to attract meeting planners to host meetings in a country)
- With a realistic approach, suggest a clear strategy and way forward with milestones within defined periods.

b) Scope of Work

The Broad scope of the study has been depicted in the diagram below. This will encompass the following:-

- Evaluation and assessment of current state of affairs in relation to MICE Tourism, estimate India's market share in the MICE World.
- Understand best practices from across the world
- Assess role of stakeholders in the current scenario
- Suggest ways and means to adopt best practices
- Defining role for each stakeholder
- Suggest way ahead defining targets and timeframes

Fig 1.2: Scope of the current study

c) Methodology Adopted

i) Overview of activities undertaken

In order to fulfill the scope of work indicated above, the following stages were undertaken, starting with evaluation, followed by Interaction and ending with Interpretation.

Fig 1.3: Stages of the Study

The activities and key outputs from the same are as detailed out in the table below:-

(1) Evaluation

The first stage of the study encompassed collation from secondary sources in addition to expert interviews. Key information sought in this phase as depicted in the Table below:-

Table 1.1: Detailed Activities of the Evaluation Stage

Phase	Details of Activities
Evaluation	Assess the potential of MICE segment in the domestic as well as international market
	Scanning the Global Scenario
	Identification and listing of major International MICE hotspots based on contribution to economy
	Evolution story/ Journey of MICE destination to hotspots over a period of time

(3) Interpretation

The third stage of the study encompassed assessment of information collated in the Evaluation and Interaction Phases. Key activities under this phase are as depicted in the Table below:-

Table 1.3: Detailed Activities of the Interpretation Stage

Phase	Details of Activities
Interpretation	Identifying the Gaps
	Computing share of India in Global MICE market
	Identifying role of each stakeholder – International vs. Domestic
	Preparing a time bound target
	Defining the role of Government, stakeholders, ICPB
	Suggestions to bridge the gap
	To suggest institutional mechanism whereby the Government, MICE stakeholders and ICPB operate in tandem to achieve the potential assessed by way of
	i. Propose revenue model for ICPB to sustain the Bureau’s Secretariat and undertake marketing activities
	ii. Propose manpower structure of the Bureau for efficient function and enlarged area of activities.
	Suggest incentives/ subsidies/ promotional strategies based on international best practices by way of
	i. Develop case studies for incentives offered by destination countries for acquiring the competitive edge at the bidding stage
	ii. Assess the incentive in terms of both financial and non-financial
	iii. Consider the effectiveness and desirability of the subvention programs in the framework of the present policies of the Ministry of Tourism.
Work out the time bound actionable / implementable strategies to promote MICE	

ii) Estimation

Estimation methodology adopted in order to arrive at the market size of Inbound MICE business in India has been depicted in the figure below:-

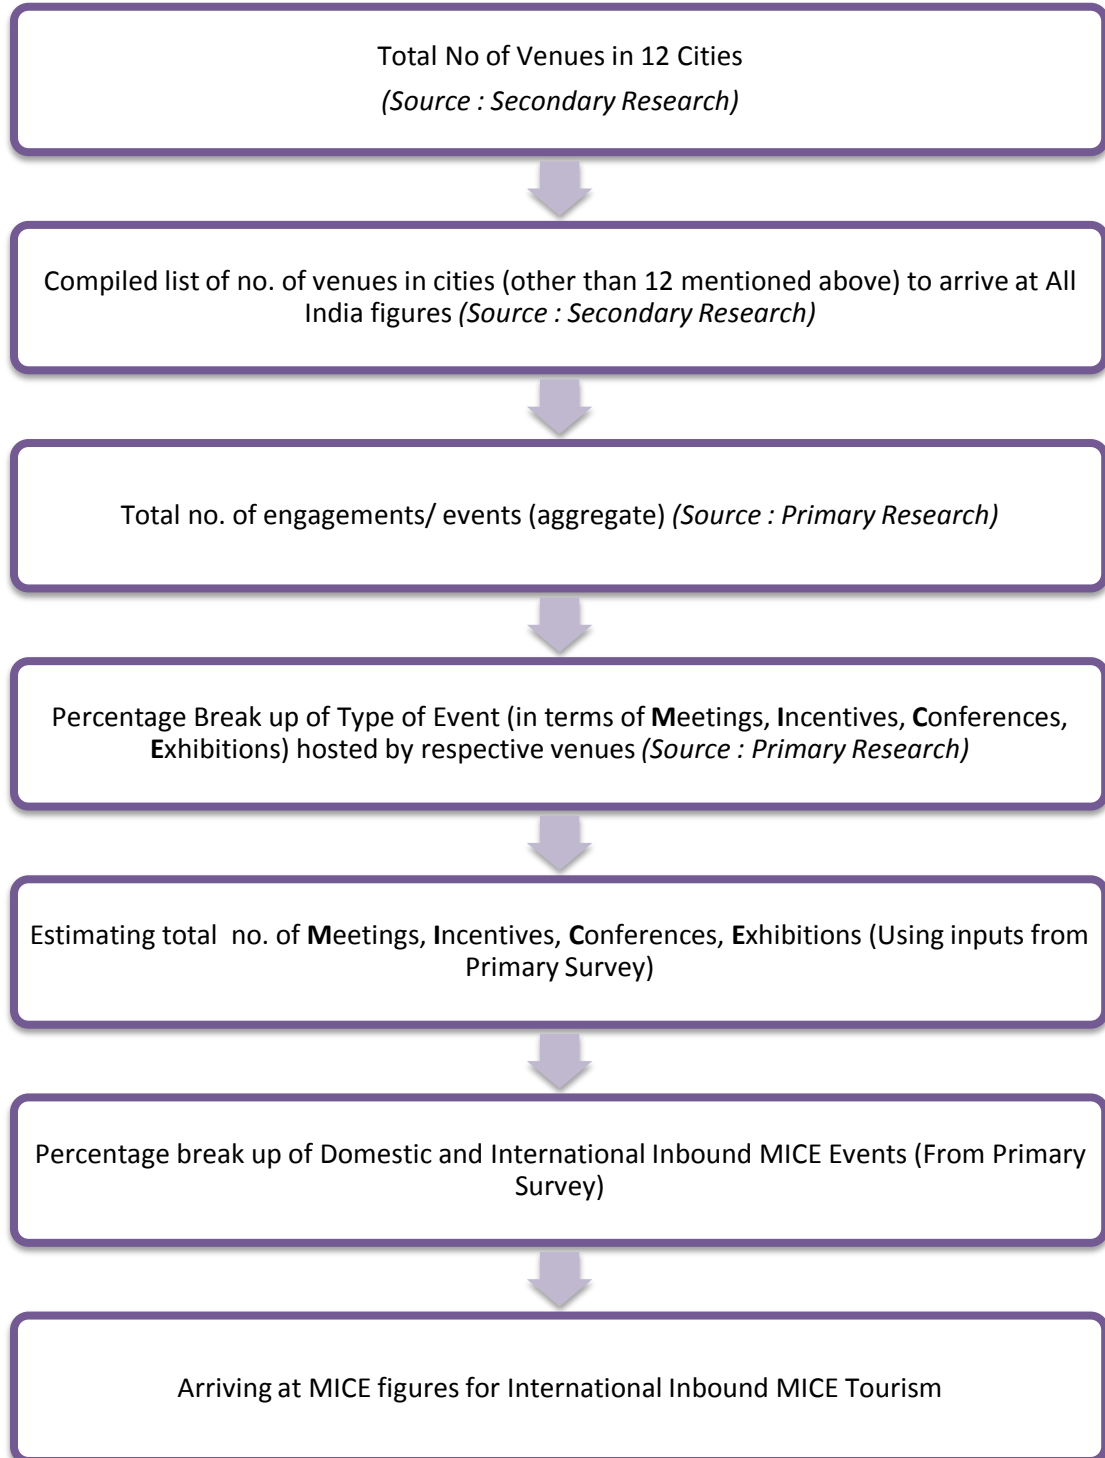

Fig 1.4: The Scope of the Estimation

iii) **Estimation Process Adopted for International Inbound MICE Tourism**

The sequential steps for the estimation process are as depicted in the figure below.

Fig 1.5: Sequential Process followed in Estimation of MICE market in India

iv) Primary Survey

(1) The Mandate

In the primary survey, the following mandate was given in the Terms of Reference for estimating the domestic market size of MICE.

Table 1.4: Mandate of Primary Survey

Stream	EVENT SIZE (Cost in INR terms)				
	Less than 20 Lakhs	20 to 40 Lakhs	40 to 60 Lakhs	60 lakhs to 1 Crore	1 Crore and above
Engineering	20	20	20	20	20
Medicine and pharmaceuticals	20	20	20	20	20
Agriculture and Allied	20	20	20	20	20
Science	20	20	20	20	20
Tourism related	20	20	20	20	20
Others (to be specified)	20	20	20	20	20

(2) The Hitch

MRSS started deep introspection of the sample size after award to the study (drawing inspiration from studies it had conducted on the subject along with FICCI) and pointed out in the inception report that Other important stakeholders also need to be contacted to get the perfect flair in the report and make the study outcome more robust on MICE Tourism.

(3) The Process followed

With help of Ministry of Tourism the repository was accessed and the report titled “**Comprehensive Database for Marketing India as MICE destination**” prepared by Ministry of Tourism in association with Development & Research Services Pvt. Ltd. in 2012 was taken as the starting point and the following activities were undertaken

- Listing and updation of the database with current information from website
- Primary survey was undertaken in those Institutes with a telephonic call to begin with and visiting the institutes

However, the following issues were observed in relation to the process:-

- Most events were not falling in those category mentioned above
- No major records were maintained and preserved for the period under consideration, especially for the educational institute.
- Requisite responses were not being elicited after multiple visits
- Details of the exact event (especially revenues) were difficult to track down after a couple of years. Majority considered this as confidential information and did not part with it.

Hence, a different approach was envisaged to attain the objective:-

- ✓ **Top Down Approach**
 - Comprehensive listing of 4 and 5 Star Hotels, Convention Centres, PCO's and suppliers of MICE in 12 Cities, which comprised of updation of MICE database. Estimation for the rest of the cities were also carried out
- ✓ **Bottom up Approach**
 - Comprehensive listing of Industry Associations, Top performing Corporates (predominantly from Economic Times 500/ Business Standard Databases) and PCO's and suppliers of MICE was done. Except PCO's and to a lesser extent travel agents/ tour operators no one had comprehensive information about the MICE segment.
- ✓ **Additional Approach**
 - Though not specified in the TOR, MRSS spoke to the following respondent segments to gain insights about international as well as domestic MICE markets
 - Various Board members of ICPB (past and present)
 - Foreign Tourism Boards/ Convention Bureaus
 - PCO's
 - Professional Organizations like PCMA
- ✓ **Observations from all the approaches**
 - Sampling approach has been depicted in Table
 - It was observed during the primary survey that majority of international inbound events were happening in 5 Star Hotels , a lesser extent in 4 star Hotels, Convention Centres and very less in educational institutes. Hence the weightage was predominantly moved to the 5 Star hotels.

Table 1.5: Redrafted Sample in different categories

Category	Respondent Group	Proposed sample size
Organizers	Organisations /Associations / MICE venues Institutions promoting MICE	20
	Convention Centre owner/Management body	10

Professional Bodies	Targeted purposive using Delphi Technique

2) The MICE World – Global

a) The Concept, Inception and Evolution

The concept of MICE (Meetings, Incentives, Conferencing and Exhibitions) tourism is the result of globalization and economic reforms. People have been gathering in the form of meetings since the beginning of time. Archaeologists have found primitive ruins that were used for specific gathering places by ancient tribes to discuss many topics including hunting plans, war-time activities, crop harvesting, or the planning of community celebrations. The current day MICE Tourism targets the high volume travelers who travel for attaining specific professional objectives.

Figure 2.1: Types of Business Travel and target for MICE Tourism

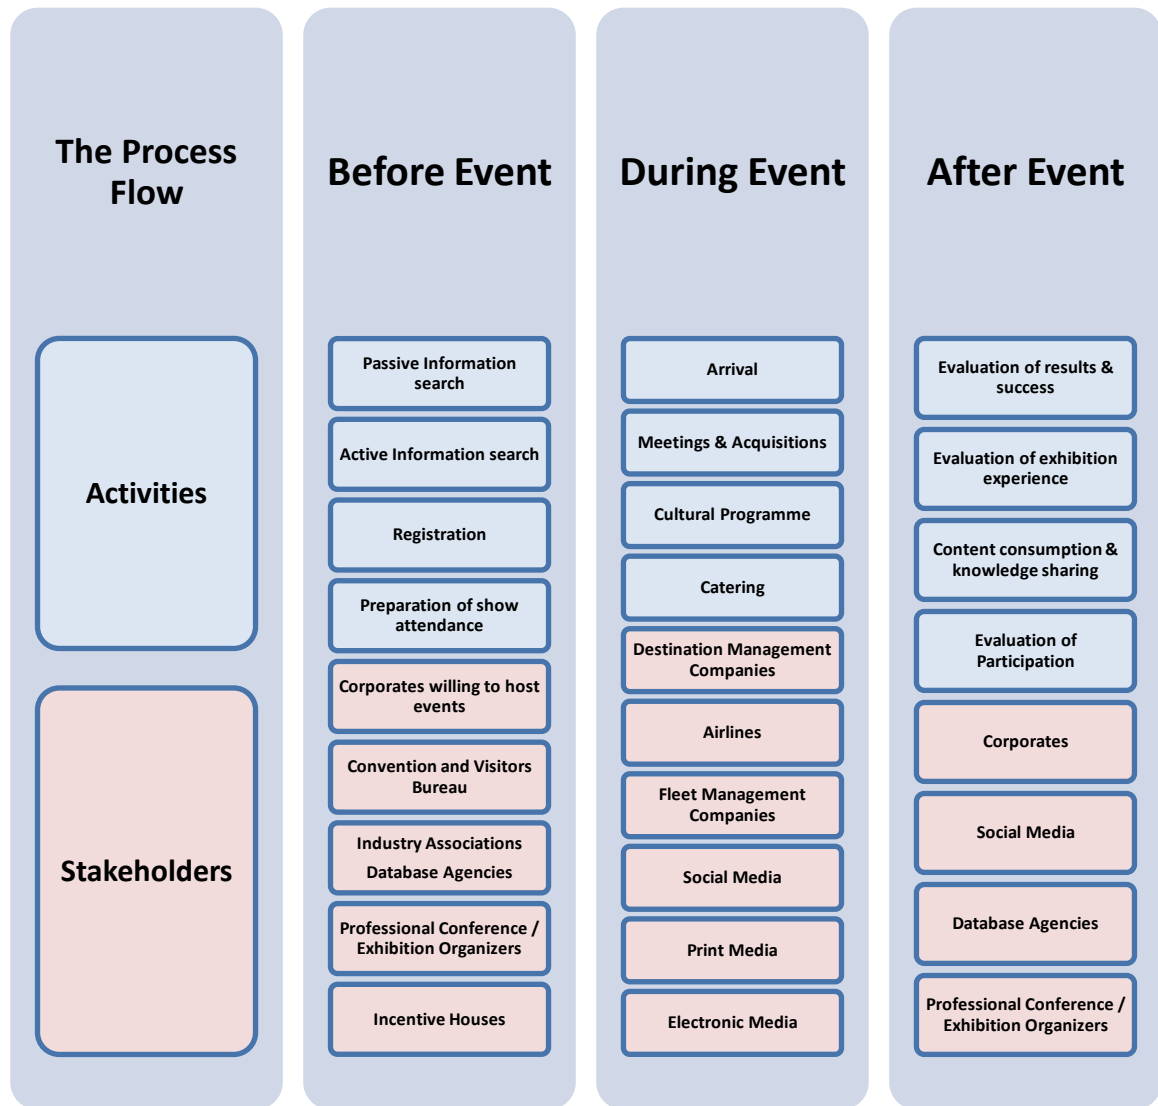

Definition wise, MICE Tourism and its' components can be described as depicted in the diagram below:-

Figure 2.2: MICE Tourism – Definition of individual components

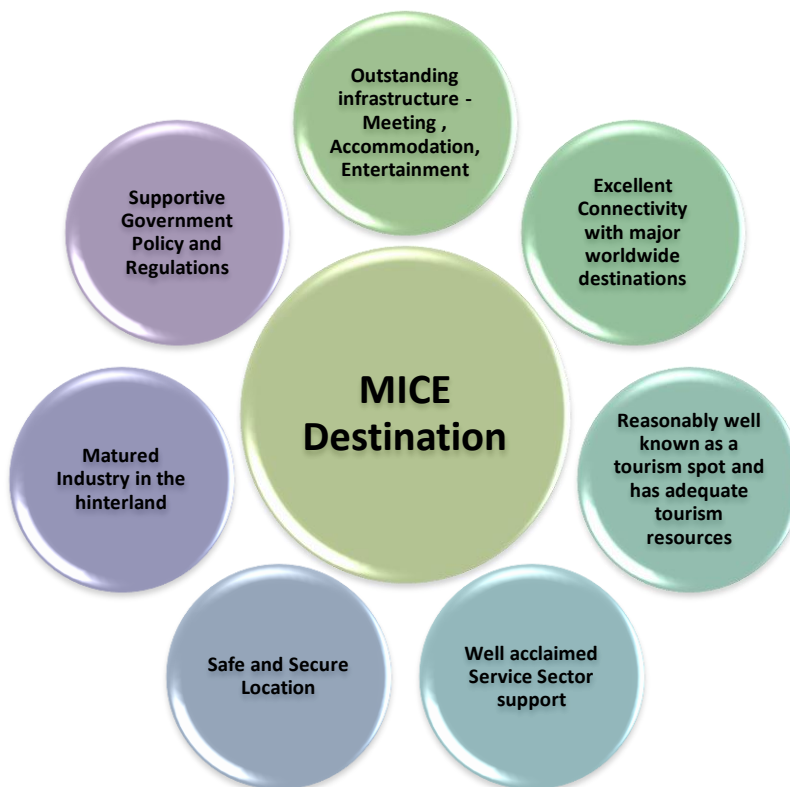

The activities involved in conceptualizing an event and executing that end to end can be divided into the following tasks and stakeholders involved in each of those identified tasks can be divided into the following aspects as indicated below:-

Figure 2.3: MICE Process Flow

As an essential pre-requisite, a destination willing to promote itself as a MICE Tourism should have the following facets addressed as depicted in the diagram below. The factors mentioned herein are not in any particular order.

Figure 2.4: Drivers of MICE in a destination

Evolution and advancement of the concept of MICE

The inception and gradual evolution of the concept of MICE Tourism has been depicted in the Table and subsequent diagram. This will throw light on the gradual evolution of MICE as a business

Table 2.1 : Evolution and Advancement of concept of MICE

Year	Location	Drivers
Early 19 th Century	<ul style="list-style-type: none"> Europe and North America 	<ul style="list-style-type: none"> Development of Universities in the 19th Century, increased the need to share information in academic circles, which led to an increasing number of gatherings and also created the need for larger public spaces for this purpose With the development of the railway, also hotels were opened at large railway stations. Many of these hotels had also special-purpose rooms for rent.

Table 2.1 (Contd.) : Evolution and Advancement of concept of MICE

Year	Location	Drivers
Beginning of 20th Century	<ul style="list-style-type: none"> North America 	<ul style="list-style-type: none"> Besides events related to the promotion of products, annual meetings of managing boards and expert meetings, new events emerged at the beginning of the 20th century, including also a better education for people engaged in the organisation, especially for those engaged in sales. As towns became more and more aware of the value the organization of meetings had for them, a group of businessmen decided in Detroit, Michigan, for the first time in history, to employ a salesman to invite meetings to be held in their town. In this way, the first convention bureau was established, and so 1896 was the year when the industry officially came into being. Besides events related to the promotion of products, annual meetings of managing boards and expert meetings, new events emerged at the beginning of the 20th century, including also a better education for people engaged in the organisation, especially for those engaged in sales.

Figure 2.4: Drivers of MICE in a destination

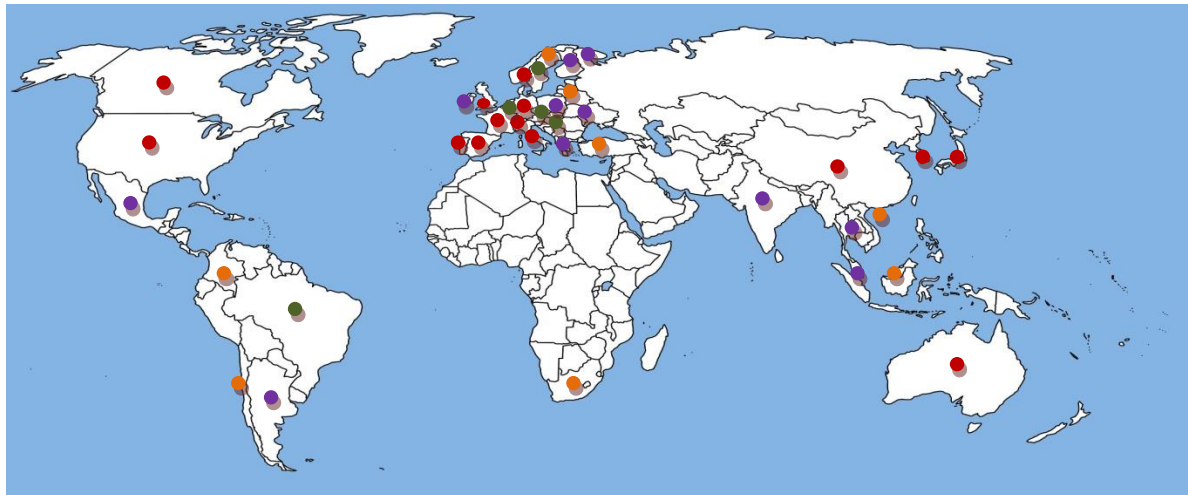

The following international organizations are the major drivers for the MICE industry globally;

- International Association of Exhibition and Events**
- Professional Convention Management Association**
- Association international des Palais de Congress**
- International Congress & Convention Association**
- European Federation of Conference Town**
- International Association of Professional Conference Organizer**
- British Association of Conference Destinations**

- Reed Exhibitions**
- Asian Association of Convention and Visitor Bureau (AACVB)**

b) MICE events across the world

The world has moved from strength to more strength as far as MICE Events are concerned as per the latest versions of ICCA Statistics is concerned. The leading countries across the world has been depicted in the diagram below.

Fig 2.5: MICE Destinations across the world

Source : ICCA Statistics 2017

The observations from the aforesaid statistics have highlighted the following trends:-

- US, Countries in Europe and also Asia (specifically China, Japan, Korea) and Australia continue to dominate the meeting space market holding more than 250 meetings/ annum
- Brazil in addition to Central European and Nordic countries lead the fray as far as 200+ (upto 250) meetings are concerned
- India is at par with Argentina, Mexico, Thailand, Singapore Smaller countries in Europe, South East Asia, and a few Central European countries in leading the the 150+ (upto 200) meeting categories in an year. The matter to note herein is the fact that India has considerably improved its’ ranking over 2016.
- A few countries of Latin America, South Africa, handful of European nations in addition to Malaysia have clocked 100+ meetings
- A comparative account of ICCA rankings from 2013 to 2017 has been represented in the Table below. This contains performance of countries hosting at least 100 international meetings/ annum :-

The observations from the aforesaid statistics have highlighted the following trends:-

- Top 10 nations in terms of hosting events have more or less retained their spots
- Jump in rankings have been observed most in Asia and Asia Pacific region
- India has made a huge jump in the last year by improving its statistics of hosting no. of meetings
- What is even more encouraging is the fact that India has registered a growth rate which is significantly higher than that of the overall growth rate of 3%, this signifies India is on the growth path (though it may not be doing as good as the smaller nations in terms of sheer no. of events they host)

c) Industry Segments investing in MICE

The following industries rely heavily on MICE for their business and GTM activities. Healthcare contributes a lion's share to the Global MICE market.

Major Contributors to MICE Segment worldwide

d) Leading MICE Associations – Comparative evaluation of success stories

A comparative depiction of the leading associations has been depicted in course of the ensuing pages. The snapshot of findings includes the following:-

- The Organizations are well entrenched into the MICE ecosystem, many years after their establishment
- Predominant Associations are either US or UK based, only one each based in Netherlands (ICCA) and Sydney (MEA)
- ICCA, IAPCO, MPI have worldwide presence
- Majority has International footprints with members from different countries
- Each organization is a professionally managed one with dedicated professionals running the same
- They are independently visible for their activities, whether it is organizing events or knowledge dissemination.

Hence, the recipe of success for the organizations has been as follows:-

- ✓ Continuous adaptation in order to stay relevant with the changes the industry has to offer
- ✓ Global footprint
- ✓ Staying at the top of the mind through publication, flagship events, knowledge dissemination activities etc.

e) Leading Convention Promotion Bureau – Comparative Assessment

Though it was strictly not a part of the scope, MRSS undertook an extensive exercise to understand the structure, inception and mode of functioning of the Convention Promotion Bureaus across the world. While some of them responded overwhelmingly, some were secretive in replying to the queries put forward. Here is a comparative depiction of the leading MICE Promotion Bureaus based on the secondary research and primary responses. The same has been documented in course of the ensuing pages. The snapshot of findings includes the following:-

- Las Vegas, Vienna and Singapore are the oldest Bureaus, the rest are relatively new entrants e.g. Dubai, Malaysia, Thailand, Sydney
- Most are either Government Controlled or Autonomous bodies
- Typical Structure (Which is professionally run by full time individuals) comprise of a CEO, Manager - Business Development, Bidding and Operations
- Typical Roles and responsibilities comprise of the following
 - Positioning the city as prime MICE destination
 - Identify Business opportunity and provide leads
 - Work with empanelled PCO's / Destination Management Companies to successfully bid for the city
 - Promoting Government and Industry Collaborations
 - Statistical analysis of Events to generate insights/ intelligence, which help in developing the pipeline

Hence, the recipe of success for the organizations has been as follows:-

- ✓ Most Convention Promotion Bureaus are City based organizations
- ✓ A formal full time dedicated structure
- ✓ Autonomous body with fair representation of both Government and Private sectors
- ✓ Markets the destination then leaves it to the PCO's to manage the show under strict surveillance
- ✓ Structured set up for providing up to date information and Intelligence
- ✓ Presence across the globe
- ✓ Adaptation with the changing world order in MICE

g. Assistance provided by selected leading Convention Promotion Bureau

On the basis of available information from different published sources following points can be presented:

Incentive (both financial / non-financial) extended to attract international conference:

Singapore Tourism Board

Due to excellent infrastructure and facilities with excellent business environment, Singapore has become perfect destination for hosting any MICE activities. The local government offers host of incentives in the form of different state driven programs which are stated below:

- a. Under Approved International Fair (AIF) scheme, Singapore Exhibition & Convention Bureau will accord these events the use of the prestigious AIF stamp of endorsement. In addition, local companies participating in an AIF-endorsed exhibition are eligible for Double Tax Deduction (DTD). This allows approved companies to make deductions against their taxable income at twice the usual amount for eligible exhibition expenses.
- b. Discounts on advertising space in all terminals at Singapore Changi Airport
- c. Complimentary welcome desk at Singapore Changi Airport to greet your participants upon arrival & complimentary air tickets on Singapore Airlines subject to certain limit.
- d. Discounted or complimentary air tickets for site inspections
- e. Flexible travel windows of up to 14 days
- f. Visa facilitation for your participants.
- g. \$250 per participants after event and on submission of all documents, if the number of total participants is more than 500.

Vienna Convention Bureau

VCB offers the following incentive to attract international events other than the general assistance like promotional assistance, discount in accommodation, food and beverage, site inspection, discount in exhibition venue rental etc.

Internationality	More than 50% of attendees have to originate from countries other than Austria
Timeframe	The conference must take place in Vienna in the period November-March or July-August
Accommodation	Must be in Viennese hotels.
Pre-financing	Receive 50% of the amount allocated one year prior to the event

Therefore, it can be concluded that Indian Convention Promotion Bureau is lagging in terms of offering the following while comparing with the other leading convention bureaus:

- I. In order to promote MICE tourism, the Govt. of India has introduced Market Development Assistance (MDA) Scheme to 'Active Members' of India Convention Promotion Bureau (ICPB) towards bidding for International Conferences / Conventions. Under the scheme, associations / societies would be given financial support on winning the bid or for obtaining second and third positions in the bidding process. Under MDA schemes Rs. 4.5 lakhs is reimbursed for winner of the bid for a Conference/Convention in India of 500 pax and above but there is no Cash Scheme like Singapore (50%), Vancouver, Vienna, Washington DC. In addition, the grant amount of Rs4.50 lakh is very nominal compare the money spent according to the different active members including PCO. The sanctioned amount needs to be re-examined and shall be enhanced keeping in mind the industry standard and with reference to different market as well as number of PAX are going to bring. It is proposed to increase the same at-least to Rs15 lakh for a winner so that associations/ society can be more motivated. In addition, the assistance shall not be restricted to once in a financial year rather it should be restricted only to the merit of the conference.
- II. Most of the Convention Promotion Bureaus support in terms of Overseas Travel where India's scheme is not in line with that.
- III. Venue and Transportation Cost is selectively financed across locations in most of the Convention Bureau and ICPB may think this line too.

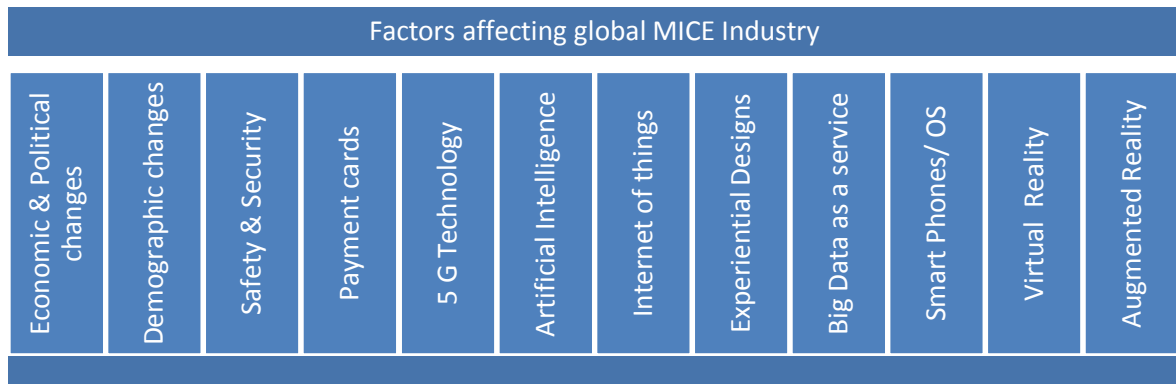

Therefore, considering the above issues, Ministry of Tourism may consider the following Assistance Schemes to attract more MICE activities:

Description	Proposed Assistance on the basis of best practices & primary survey
Promotional assistance	Logo endorsement
	Complimentary tourist information kits and welcome gifts
	Facilitation in liaison with other City A government entities
	Free admission to two city museums
Accommodation	10% cost support will be granted for a maximum of 5 nights;
Food & Beverage	Fixed amount per delegate
For Key-Note Speakers & Heads of Delegation	Maximum 2 nights of hotel per keynote speaker or head of delegation
Bid support for all potential events (meetings, exhibitions, incentives)	For pre-qualified bids, support includes air fare, participation fees, and bidding consultation on preparation of bid documents and presentations
Site inspections support:	Includes round-trip air fare and ferry
	Local transfers and local accommodation for a maximum of 4 decision makers depending on the size of the event
For exhibitions	25% support on exhibition venue rental,
	Qualified buyers support in terms of transportation expenses

3) The Future of MICE

The following factors are going to deeply impact the MICE trade across the Globe:-

Fig 2.6: Factors impacting global MICE Industry

Impending future trends

A thorough analysis of global trends in MICE Tourism by different stakeholders can be summed up as below:-

Hotels

- The rates of hotels continue to climb upwards largely due to mergers and acquisitions activity in world
- Mid Tier and Luxury resorts are in most demand
- Uniqueness will be the cue in next 2-3 years
- Asia Pacific to lead the Mid scale to Luxury segment compared to the other zones of the world – 4 -5 Star property construction to be on the rise
- Hotel Room rates, Free Wi Fi, Free Amenities to remain major factors for negotiating contracts

Airfare

- Group Airfares will continue to rise but will have reasonable influence on choice of destination
- Intra regional rates will decrease over time
- Air capacity and group volume will increase with Asia and South East Asia leading the fray
- Flat Rate from one destination, Conference Window rates and Mini route rates will hold key to negotiations

Attendees

- More demanding attendees
- More exotic venues will be sought after

- Technology driven outputs to be sought

Organizers

- **Gathering numbers** - For each meeting type, it appears that meeting owners are trying to find the right combination of the number of meetings held and the size of those meetings to drive the most value for their organizations.
- **Making adjustments** – With property and other related meeting costs rising, many organizations appear to be adjusting the number and size of their meetings to stay within their budget constraints. Holding fewer meetings with more attendees or a more targeted attendee list is an option being practiced.
 - **North, Central and South America as well as Europe will see a decrease in no, of meetings**
 - **Asia Pacific will witness regional growth**
- Days per meeting to remain flat in accordance with the budget constraints
- Spending on experience for attendees to take a boost
- Overall budget to remain steady and will remain at the centre of planning process

4) A snapshot on the primary findings

The primary findings indicate the following trends with respect to the MICE Tourism in India amongst the different stakeholders.

a) Feedback from Hosts/ Venues

The feedback on break up of event types by different types of establishments (hosts/ venues) are as depicted in the Table below

5) MICE Tourism in India

a) Evolution of the concept in India

MICE Tourism has been existing in India since time immemorial. The kings and the emperors used to host lavish gatherings at their palaces for a long time. This accentuated in the British era and further shaped up in the post-independence era, with the advent of the 5 star accommodation units across the country. Hosting of large scale sporting events like the Asian Games in 1951 and 1982 and the Commonwealth Games in 2010 further showcased India's ability to successfully host events like this. With the formation of ICPB in 1988, further momentum was received for this segment of the industry. With the MICE industry entering a maturing phase and the focus shifting from Europe to Asia Pacific region, India is on the cusp of a major breakthrough, an advantage to become a leader in MICE tourism in the Asia – Pacific region.

b) India's relative positioning over last few years

As per ICCA rankings, India has improved its position substantially in the recent times, when it hosted 175 meetings in 2017 compared to 143 for the previous year, thus leaping and improving its position by seven positions. A vivid analysis of 5 year data indicated that India has infact reclaimed its position, which it maintained in the year 2013, albeit with a hosting of lesser no. of meetings.

c) Overview of Infrastructural amenity

Infrastructural amenity in India is at par with the most of the developed countries and in some metro cities it is excellent to say the least. A snapshot is presented in the Table below for Kind reference.

MICE Venue	Infrastructural Amenity	Evaluation
Venue	5 Star + Hotels	<ul style="list-style-type: none"> India has 357+ Hotels in the 5 star category and a few more upcoming in the different cities. Majority of them stand out in terms of services provided, which are of truly international standards. A few of the hotels are also unclassified or have not renewed their classification but continue to be excellent venues for MICE.
	4 Star Hotels	<ul style="list-style-type: none"> India has 278+ Hotels in the 4 star category and a few more upcoming in the different cities. A few of the hotels are also unclassified or have not renewed their classification but continue to be excellent venues for MICE.
	Convention	<ul style="list-style-type: none"> 69 Convention Centres are located in India each having the

	Centres	possibility of hosting world class events
	Educational Institutes	<ul style="list-style-type: none"> An estimated 1500 Educational Institutes are located in India each having seminar halls with the possibility of hosting events having an attendance of 100+ delegates

MICE Venue	Infrastructural Amenity	Evaluation
Connectivity	Airport	<ul style="list-style-type: none"> India has 27 International and 48 Domestic Airports Majority of them has been upgraded to a visual splendor with modern civic amenities thronging every corner
	Frequency of Air Connectivity	<ul style="list-style-type: none"> Air connectivity has improved drastically over last few years Connectivity has been established with State Capitals and all small towns
	Road Connectivity	<ul style="list-style-type: none"> Expressways and Highways have undergone a massive change in recent times and expansion mode is one, especially in the current regime of the Central Government. This has made travelling between cities fast, safe and affordable.
More about the location	Availability of Suppliers of hosting event	<ul style="list-style-type: none"> Suppliers in all forms and facets are available even in small towns and most of them have a professional touch as far as providing support in hosting an event is concerned. Thanks to the new generation and their passion.
	Aesthetic Spots/ Spots of historical importance	<ul style="list-style-type: none"> India has innumerable spots of historical/ cultural/ aesthetic importance, which can be used for attracting a meeting and entertaining the delegates. This is an unique proposition which as a nation makes India an unique place to host events.
	Recreation amenities in the spot	<ul style="list-style-type: none"> This has considerably picked up in the recent times but there is still miles to cover, especially in the small cities.

d) Opportunities for MICE tourism in India

The Opportunities which play advantage for MICE Tourism in India can be summed up in the following points as depicted in the figure below:-

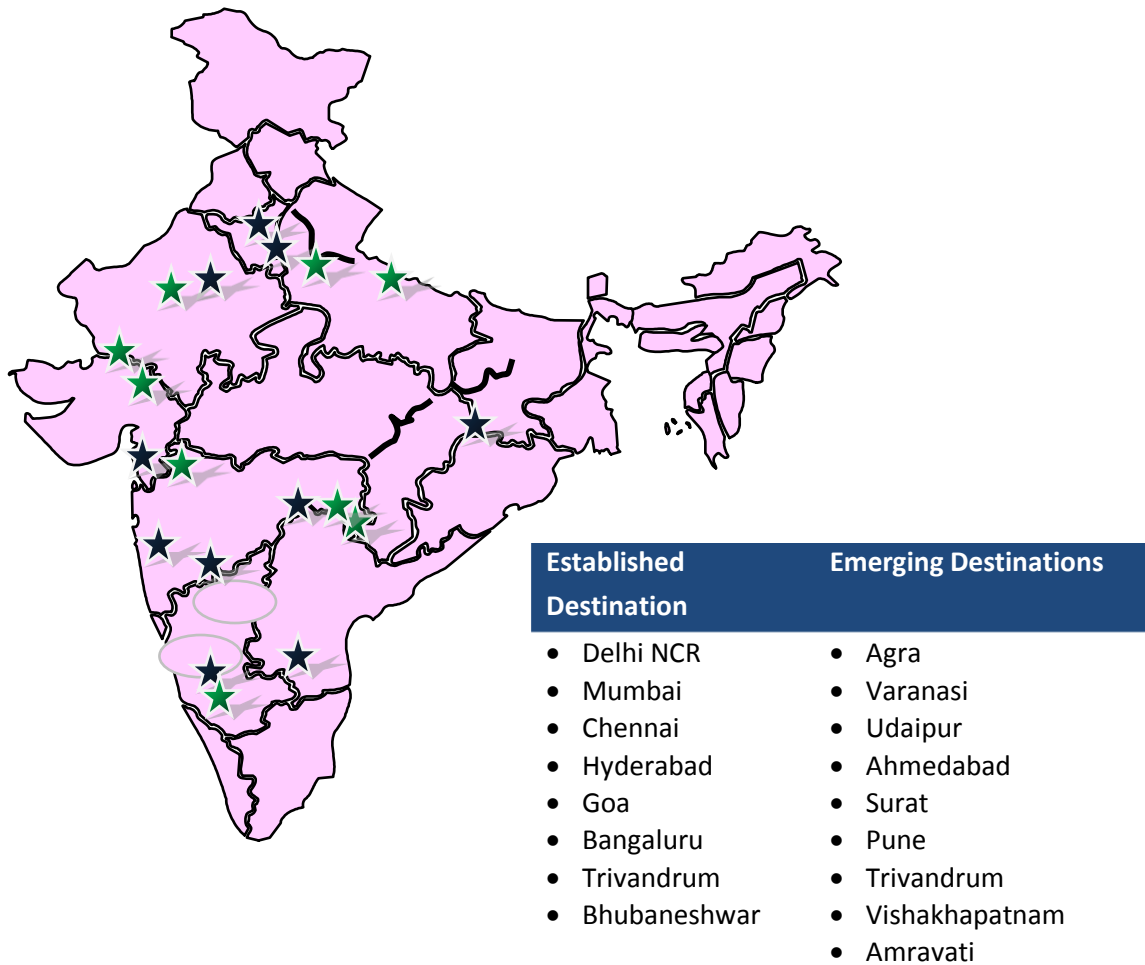

Fig 4.1 – Strengths of India MICE Brand

e) Major Destinations

FICCI – MRSS had published a whitepaper in 2016 titled “*India Inbound MICE Tourism, trends and opportunities 2016*” and subsequently a report title “*MICE Tourism – Powerhouse of New Era*” which had identified a few destinations as depicted in the diagram below. What is encouraging to see is the fact that a few more destinations had already made its name into the key destinations that could develop as future brand ambassadors for MICE Tourism in India and could place India formidably in the map of MICE Tourism.

Fig 4.2 – MICE Hotspots in India

The good news is the fact that India is identifying and adding cities wherein MICE can be a top draw to boost tourism and pep up economy of the particular location. These cities already have a good infrastructure as far as hosting conferences are concerned and/ or in the process of development. What needs to be done is to improve upon the connectivity, up skill people, empower local level organizations and grow the ecosystem in a focused way.

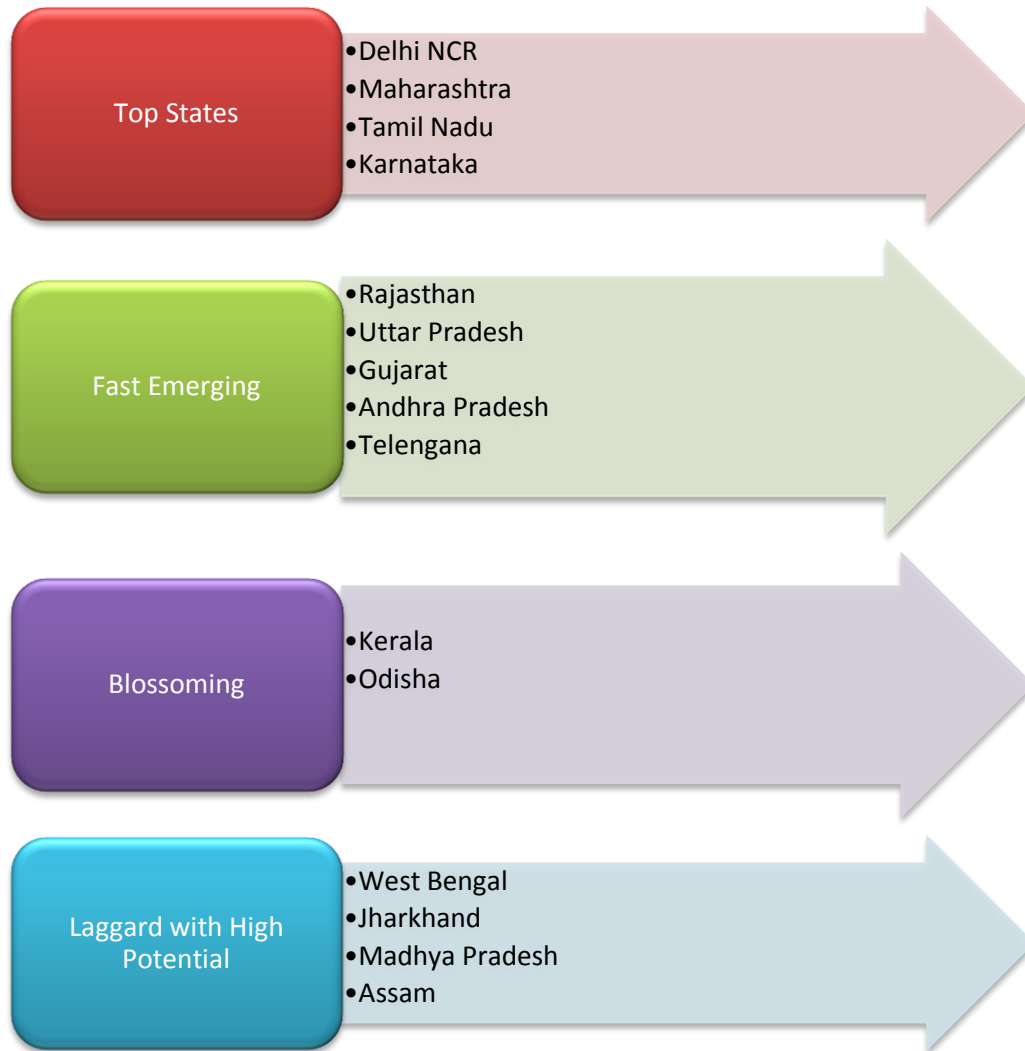

As per latest statistics available from ICCA, the following cities of India has contributed immensely in improving rankings for India

- New Delhi – grew by CAGR of 13.9% for a 5 year period
- Mumbai – grew by CAGR of 3.7% for a 5 year period
- Bangalore – grew by CAGR of 14.5% for a 4 year period
- Hyderabad – grew by CAGR of 8 % for a 3 year period
- Chennai - grew by CAGR of 9.3% for a 5 year period
- Goa – grew by CAGR of 4.7% for a 5 year period

f) Segmentation of States in India based on MICE Tourism potential

MRSS team of experts conducted a thorough analysis of the initiatives undertaken by different states and has segmented them into the following categories based on their USP in MICE context, initiatives undertaken and focus to improve upon MICE tourism in the State.

Fig 4.3 – Segmentation of States in relation to MICE in India

g) ICPB and it's role in evolution of MICE in India

The India Convention Promotion Bureau (ICPB) has been set up under the patronage of the Ministry of Tourism to promote India as a convention destination. The ICPB is a non-profit organization with membership comprising of representatives of national airlines, hotels, travel agents, tour operators, Professional Conference Organizers, State Governments, etc. Ever since its inception, ICPB has been bringing together the who's who of the travel trade and under the aegis of Ministry of Tourism, Government of India has been playing its' subtle role in the Convention business in India. A critical evaluation of ICPB in the current context indicates the following strengths and weaknesses for the organization.

Fig 4.4 – Strengths and Weaknesses of ICPB

Strength	Weakness
Experienced professionals in the industry	Lack of focused marketing initiatives
Wide gamut of participating Organization	Lack of dedicated full time leadership team
	Lack of business intelligence / information
	Lack of revenue generation scope resulting financial constraint
	Steep membership fees

**Resulting MICE
 India Suffers**

The concept of ICPB in the wee years of MICE as a trade was indeed a visionary step but what India has seen over the years is only an organic growth in the trade. The organization has also not evolved and adapted as per the changing demands of the trade. As it was observed in case of other boards and convention bureaus adaptation and transformation is the key of the hour, which needs to be implemented to gain positive traction in this business.

6) Estimation of Market Size of MICE

a) Global

The estimated global market size for MICE as per the secondary research carried out from various sources by the MRSS team is in excess of 808 Bn USD for the year 2017. The industry is growing at a blistering pace of 7.5% per annum and is expected to touch 1200 Bn in 5 years' time from now.

b) India

Using the estimation methodology indicated in the Chapter 1, the turnover of the Indian MICE industry was calculated. Sequential steps for the same have been indicated below:-

Step 1: No of Establishments: This was collated from secondary research from Ministry of Tourism, Other secondary sources. For estimated number of Hotels / establishments in “Other Cities” - Emerging MICE Destinations concept had been used and existence of number of 5 and 4 star categories Hotels into those cities / destinations had been referred to. The emerging destinations considered in consultation with the PCOs and event management companies are Ahmedabad, Bhubaneswar, Chandigarh, Indore, Nagpur, Surat, Thiruvanthapuram, Udaipur, Varanasi and Vizag.

Table 5.1: Estimated no. of Venues/ Establishments

Estimated Domestic Revenue (Rs. Crs.)			15088

Step 8: Estimation of Revenue from exhibitions: - This was collated from primary survey. The estimation process has been depicted below:-

- No. of Convention Centres in India (Source: Secondary Research) = 69
- No. of Exhibitions taking place per annum (Source: Primary Research & Secondary Research – India Exhibition Industry Report 2017)= **745**
- Average rented out Space / Exhibition (Source: Primary Research) = **6800 Sq.M**
- Prevailing rate of renting out space (Source: Primary Research & IEI) = **Rs.9500/ sq.mt.**

Multiplying (b)*(c)*(d) indicated above = Estimated total turnover from Exhibition segment is **Rs. 4812 say Rs 4800 Crs**

Step 9: Estimation of Revenue conferences in educational Institute: - This was collated from primary survey. The estimation process has been depicted below:-

- Number of educational institutes in India (Source: Secondary Research) = **1423**
- Number of Conferences taking place per annum (Source: Primary Research)= **61**
- Average revenue per conferences (Source: Primary Research) = **Rs 12.0 lakh**

Multiplying (a)*(b)*(c) indicated above = The estimated total turnover from conferences in the education segment is **Rs. 10416 Crs**

The estimated total turnover from the Indian MICE Segment is **Rs.37576 Crs** with the breakup as depicted in the Chart below:

Sl. No	Description	Value in CR
1	Hotel – Meeting, Incentive and conference	22360
2	Space selling by Event Organizers	4800
3	Higher Academic Institute / Professional institutes organizing conference more than 100 pax.	10416

c) Economic Impact of Indian MICE Tourism

i) MICE Contribution to Indian Economy
The estimated total contribution from MICE Tourism is Rs. 37576 Crs to the economy directly though there
ii) India's contribution to the Global MICE industry Turnover
India's contribution to the Global MICE industry stands at 0.96% of the Global figures. 1 USD has been assumed as Rs. 70 for this calculation.

d) Market Size of other tourism products in India

From the available information it is quite interesting to note that the other form of tourism products like Medical / wellness tourism, Adventure Tourism, Eco- Tourism is growing by very steadily.

Medical Tourism

India is becoming an increasingly big player in the international medical tourism industry, otherwise known as Medical Value Travel (MVT). The current value is in the tune of INR28000 crore which is expected to be doubled by 2020. In 2017 alone, 650,000 foreign nationals visited India for medical care as per industry sources.

Adventure Tourism

As per available published report the estimated market for Adventure Tourism is in the tune of INR 2000 crores with a growth rate of 8.5% per year. The revenue generated from domestic adventure tourist visits stands at around INR 1297 crores for all Indian states and UTs. The revenue generated from foreign adventure tourist visits stands at around INR 475 crores for all Indian states and UTs.

Eco- Tourism

Ecotourism in India has grown significantly in recent years in India since the country has a diverse geography which led to the development of many tourists destinations. These various destinations not only de-stress the tourists but also rejuvenate them. This is one of the most focused tourism products but located in few selected states and the role of the state government for promoting Eco Tourism is very critical for the success of the project. The Kerala State Government has earned a record INR 14553 crores from eco-tourism alone in 2016-17. There is no such accurate data available to define the size of this tourism product.

i) SWOT of India as a MICE destination

The SWOT Analysis of India as an emerging MICE destination has been depicted in the figure below.

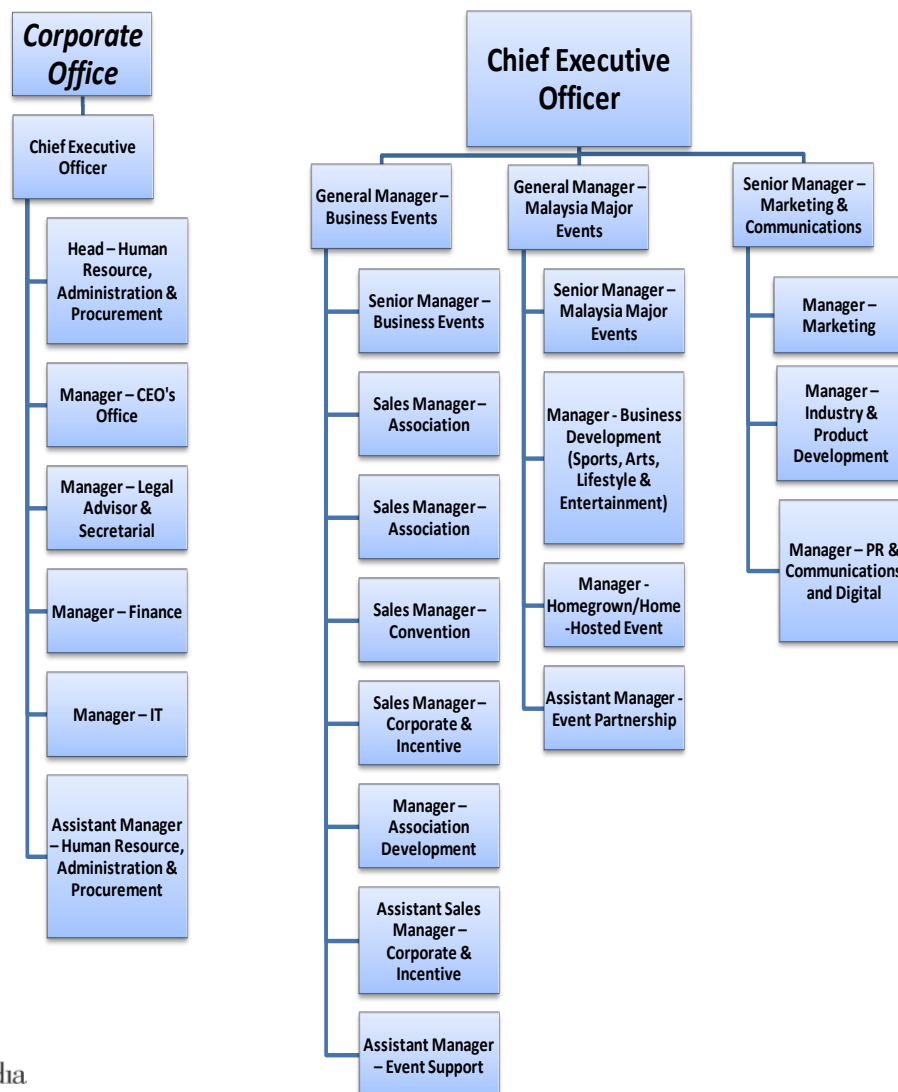

Fig 5.7 : SWOT Analysis of India as a MICE destination

7) Structure of MICE Convention Bureaus in other countries

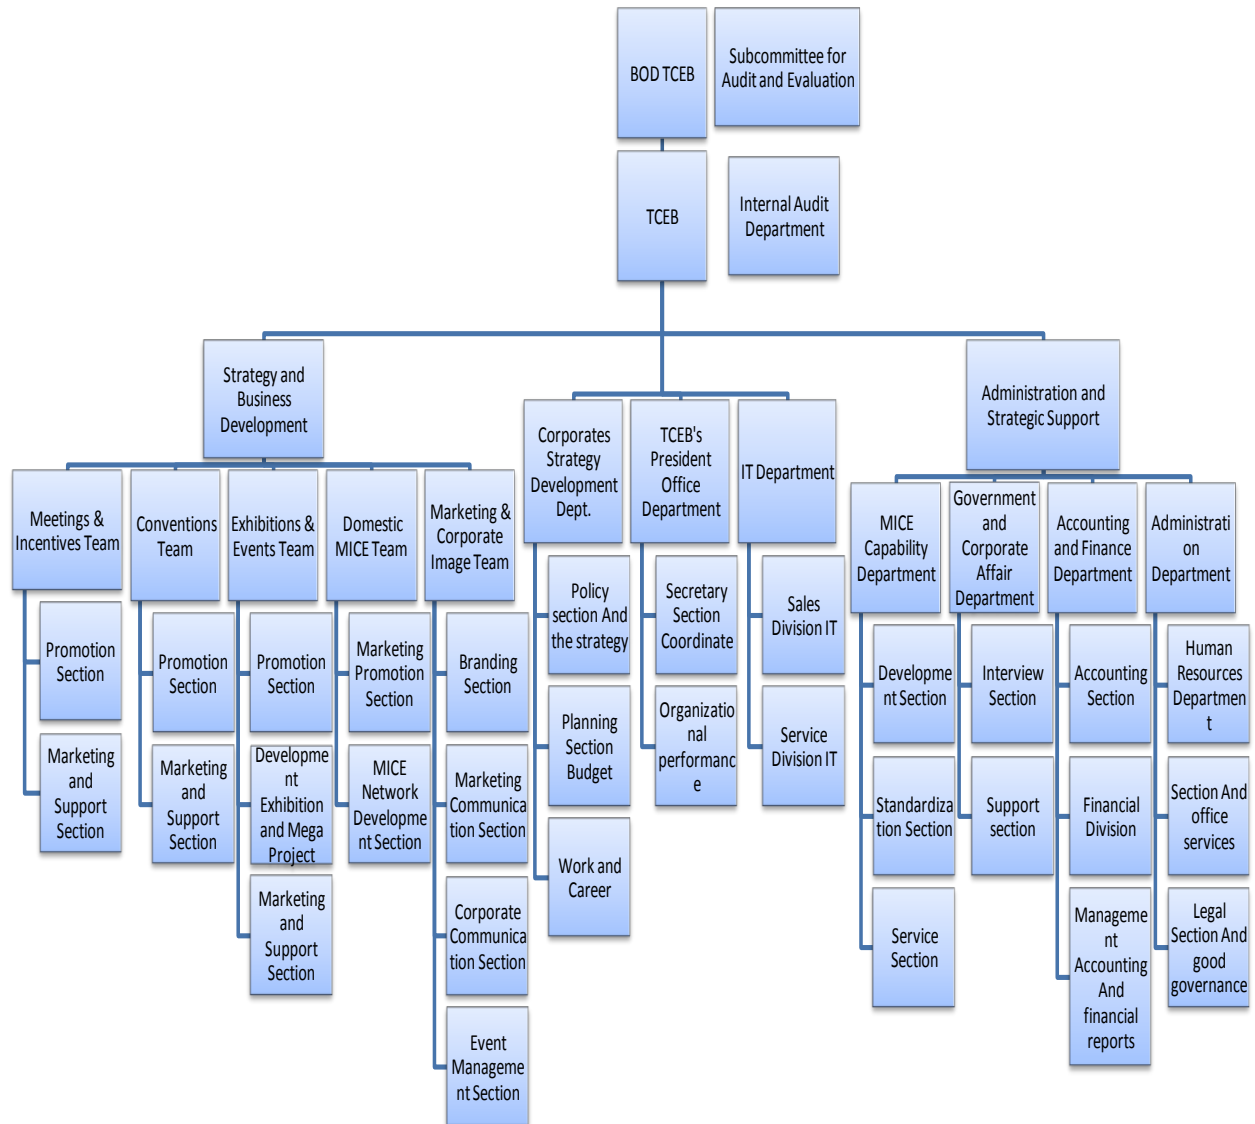

The previous chapter elaborated how the various MICE Convention and Promotion Bureaus across the world are functionally structured & operating. The organization structure of few leading bureaus is depicted below:

8) Critical Evaluation of ICPB’s role in developing India as a MICE destination

In this section, the ICPB Structure shall be evaluated critically and a fresh new structure shall be suggested to take on the new paradigms of the MICE world.

a) Current Structure of ICPB

The current structure of ICPB as it stands today has been depicted in the chart below. We have a representation from both Government as well as Private sectors (which contains a variety of organizations starting from PCO’s to Event Organizers to stalwarts in the MICE Trade). The public and the private sectors have been depicted in the figure below with different colours. It may be noted herein that from the private sector, no one has an exclusive full time role in ICPB.

Fig 7.1 : Current structure of ICPB

This apart, there are a few committees co-ordinated by the ICPB team, which is as stated below.

Fig 7.2 : Current ICPB Committees

b) Major Strengths and Weakness of the current structure and function

This has been analysed and depicted in the figure below

Fig 7.3 : Strength and Weaknesses of Current ICPB structure

	Public Sector	Private Sector
Strengths	<ul style="list-style-type: none"> MOT Manpower presence across the world 	<ul style="list-style-type: none"> Ages of expertise in the MICE Trade both in business generation and execution
Weakness	<ul style="list-style-type: none"> India not being promoted as a MICE Destination or no brand India in the global MICE space Specific MICE Policy and role of ICPB in India MICE story Lack of specific information about MICE trade – Global and more specifically local Manpower presence in different destinations but no instructions/compulsion on them to market MICE Marketing and Execution knowledge of MICE Funding for ICPB, Bidding Process 	<ul style="list-style-type: none"> Execution support from Government – in terms of Visa Issues, FAM Trips, Incentives, Sponsorship of Dinner, Gifts for delegates No major benefits obtained by securing ICPB membership MICE business is happening because clout of individual members ICPB membership rates are comparatively stiff compared to other Associations making it difficult for the startups to join

c) Some feedback from the ICPB Board members

A considerable number of ICPB Board members were interviewed and the following feedback was received in issues pertaining to the MICE Segment in India, constraints faced by ICPB and Brand MICE India’s competitive advantage. Rating of each parameter was done in a scale of 1 - 5. The top 2 boxes i.e. ratings of 4 and 5 were represented and depicted in the charts below to derive insights out of it.

Fig. 7.4 : Problems faced by MICE Segment of Business in India

As far as the Constrains faced in Indian MICE industry is concerned, Lack of well-defined policies, structure of the promotion bureau, lack of Government support in pre/ post event area are the major bones of contention.

Fig 7.5: Constraints faced by ICPB in promoting India MICE Brand

When asked about their perception on the constraints faced by ICPB in promoting the MICE Brand, Funding Issues, lack of Manpower, absence of Marketing and lack of Bidding experience seem to rule the roost.

Fig 7.6 : Competitive advantage of Brand India MICE

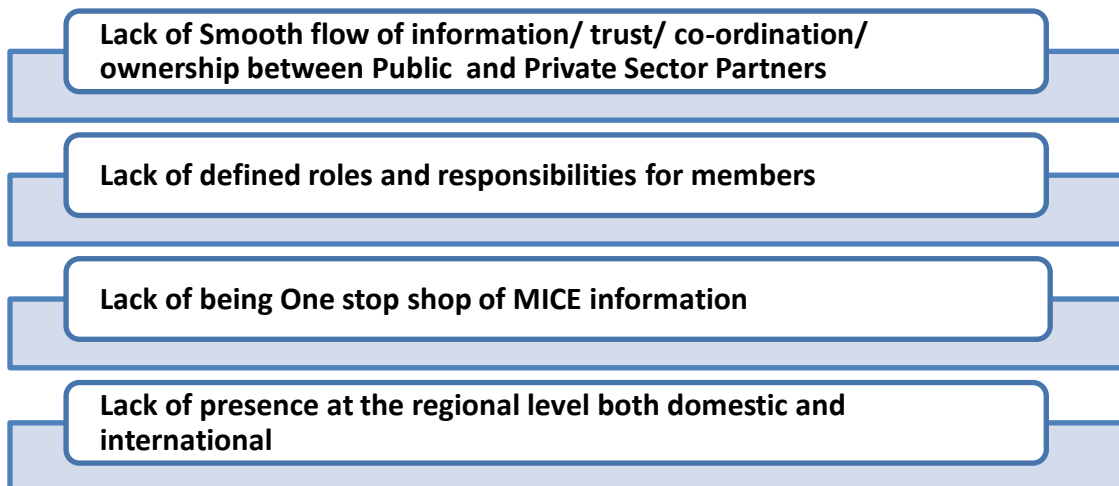

As far as the potential of India as a MICE destination is concerned most of the members of the ICPB Board, who are the stalwarts in the trade in their own rights have indicated that the offerings made by India are quite competitive in the global context.

d) Issues and Impediments faced

The major issues and impediments faced by the ICPB in promoting India MICE brand can be as depicted in the figure below. All these pertains to the lack of the following factors

Fig 7.7 : Issues and impediments faced by ICPB

e) Issues to address and focus upon

The major issues to address and focus upon are as depicted in the figure below:-

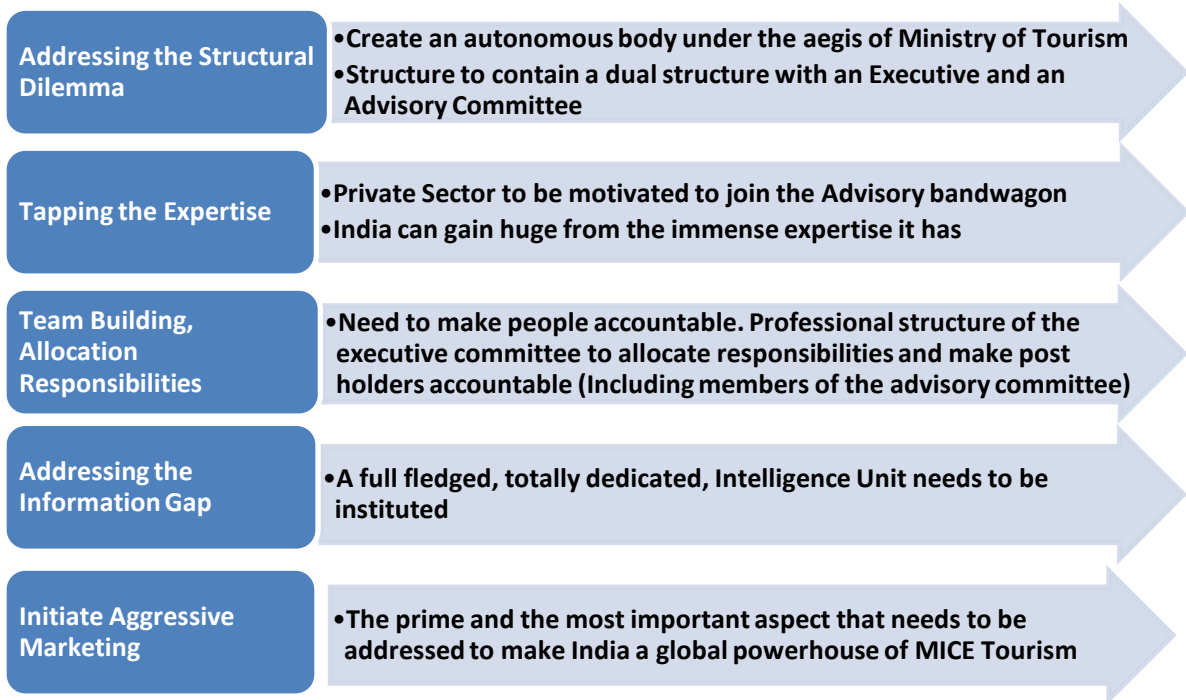

Fig 7.8 : Pinpointing areas to address

f) Ways and means to address the issues

The major issues to address and focus upon are as depicted in the figure below:-

Fig 7.9 : Addressing the areas of concern

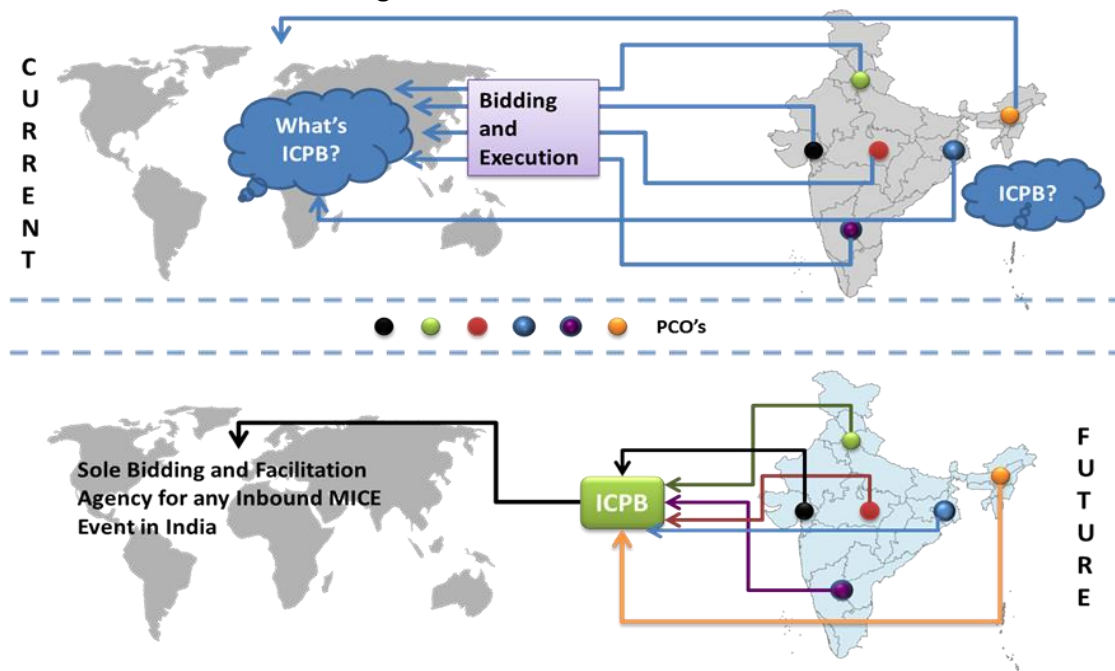

g) Proposed Transformation of ICPB

In the current regime Bidding and Execution is predominantly handled by the PCO's for any event that happens in India. Hence Brand equity of ICPB is almost nil at the current moment. It is proposed that all bidding be handled by ICPB and execution be handled by the PCO's depending upon the skill set and experience. It is proposed that ICPB graduates to a Bidding and Facilitation Agency representing India with a prime focus to market India as preferred MICE destination to all international events organizing body. Like other global leading conventional promotion bureau India Convention Promotion bureau needs to act on the following:

- ✓ There is an urgent need for expansion of Convention Bureaus across different major destinations in India where MICE activities are very much active.
- ✓ Market India as MICE destination across the target market
- ✓ Use market intelligence to identify the future international events
- ✓ Participate in bidding process and offer most competitive bidding using latest tools an technique
- ✓ Extensive network of suppliers to support team in developing strategies for delegate boosting and marketing activities, as well as sourcing local event service providers, locating suitable venues and accommodation and providing pre and post tour suggestions.
- ✓ A dedicated representative within the Convention Services team helping in appointing a Professional Conference Organizer (PCO)
- ✓ Organizing site inspections
- ✓ Close co-ordination with different Ministries for meeting required formalities for seamless implementation of the MICE event across any part of the country.

The proposed structural and functional transformation of Convention Promotion Bureau has been presented in ensuing pages

Fig 7.10: ICPB – Current and Future

Once the event comes to India, ICPB will arrange to organize an internal Bidding, which will be a source of revenue as well for ICPB.

h) The New Role

The new role of ICPB as an organization is defined in the figure below

Fig 7.11: New role of ICPB

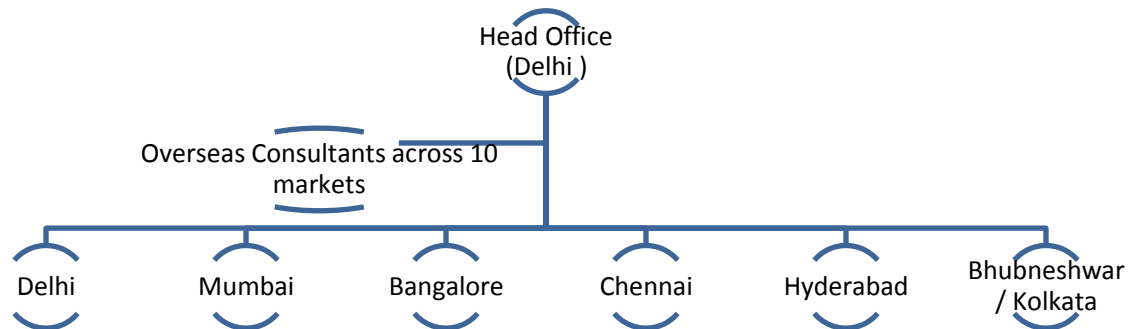

i) The proposed structure

Keeping in mind the potential of MICE tourism in India as well as available infrastructure and other resources, Government of India has projected MICE Tourism as one of the important avenues to boost inbound tourism in India. However to reach such ambitious goal there is a need to review the existing structure in terms of gaps and thereby strengthen the same in terms of putting suitable skilled professional as well as re-structuring the existing structure in terms of duties and responsibilities. It is evident from the ICCA Report that there has been a significant jump of India in terms of ranking of hosting international events which is now 24th from 31st position in 2016. Primary survey reveals that PCOs are bidding for different international MICE event for India using their own network where the role of ICPB is very limited in terms of bidding support and promotion in international platform due to limitation of resources an expertise. Whereas all the Convention Promotion Bureaus work in either way i.e. bidding for the country and transfer the event to the most eligible and expert PCOs other than extending all possible support both within the Government and from the available resource of Convention Promotion Bureaus. Also most the convention bureaus are city / town based and thus promoting destinations and helping / extending support for seamless implementation.

Therefore, it is proposed to have 2 tier Structure:

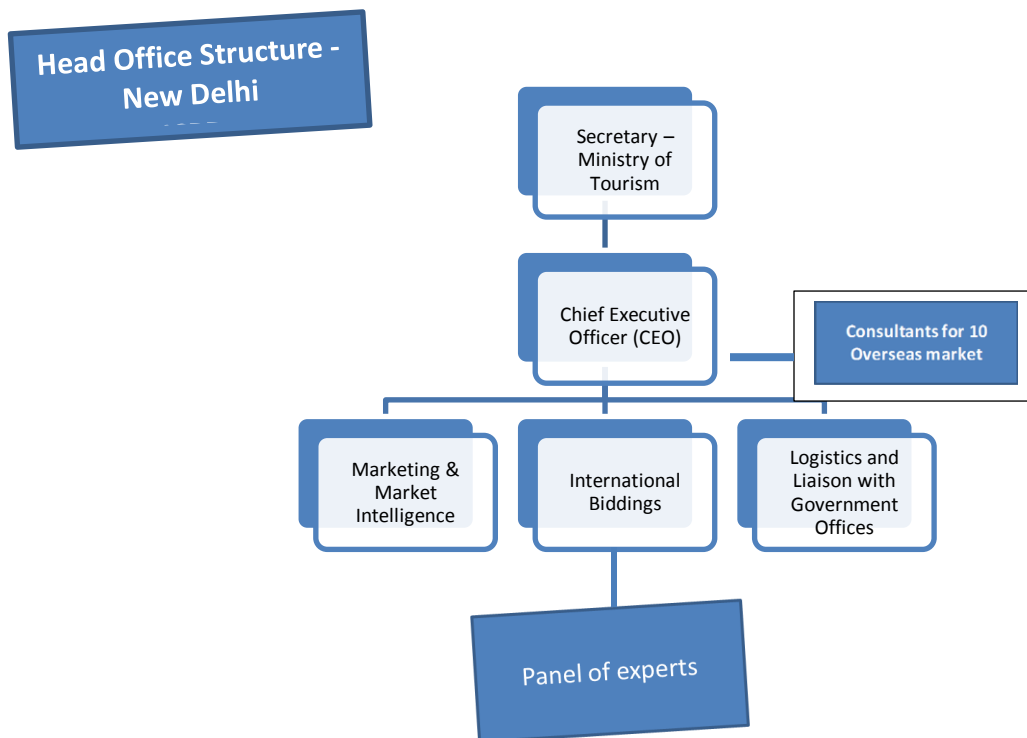

- Head Office would be responsible for overall marketing and bidding
- 6 Destination Offices would be responsible for bidding support, if require and identifying local infrastructural resources, PCOs and Expert

Therefore, following locations may be suggested for the above

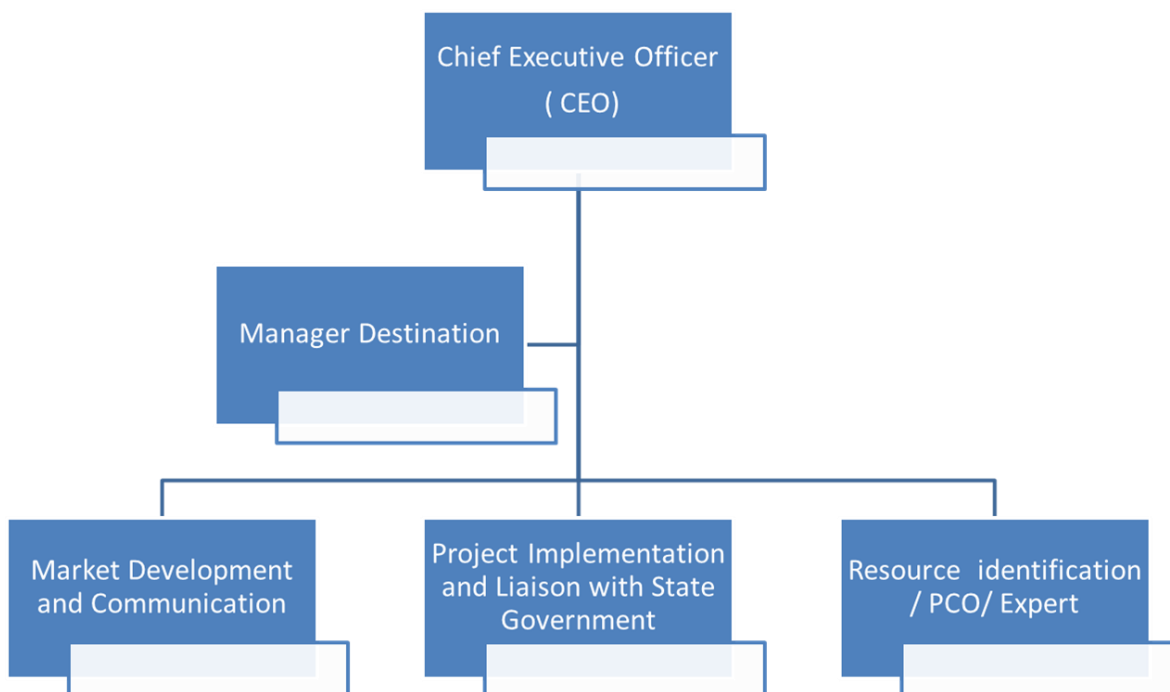

The destination office can be increased after successful implementation of the proposed modification and structure and outcome of seamless implementation.

Fig 7.15 : Proposed Structure

Destination wise proposed structure of ICPB – a team of 4 to 6 reporting to CEO

j) Facets and Characteristics of the proposed structures

The facets and characteristics of the proposed models in comparison have been presented in the Table below:-

Table. 7.1 : Key feature of the proposed model

Parameters	The proposed model
Mode of functioning	Autonomous body
Government Control	Partial
Proposed Manpower	In Head office –total of around 8-10 full time staff including CEO and in Destination office 4- 6 members full time staff. Apart from 10 consultants having MICE expertise and foreign nationals to be there in Ministry of Tourism overseas office depending upon the prospective market for International MICE business.
Domestic Regional presence	Initially proposed 6 ICPB Destination offices which will be increased gradually on the basis of success of MICE and growth in infrastructure across emerging destinations.

Parameters	The proposed model
International Presence	Proposed in top 10 MICE markets through consultants reporting to Director at International Tourism offices, MoT as well as CEO- ICPB
Marketing function addressed	Yes
Market Intelligence function addressed	Yes
Admin & HR function addressed	Leveraging current set up
Finance function addressed	Leveraging current set up
Leveraging current set up	Partial
Roles and Responsibilities of full time staff	Clearly defined

Pros and Cons of the proposed models

The pros and cons of the proposed model in comparison and the recommended one have been presented in the Table below:-

Table. 7.2 : Pros and Cons of the proposed Models

Suggested Structure	Pros	Cons	Recommendations
Destination specific setting up ICPB office with HQ in Delhi earmarking roles and responsibilities of each office	<ul style="list-style-type: none"> ☞ Maintains and strengthens current secretariat partially with expansion of destination specific more ICPB offices with different roles and responsibilities ☞ The new structure is more focused on marketing India as MICE destination & development of destinations for seamless implementation of Events. ☞ New and refurbished role of the PCO's ☞ Balanced expenses and revenue generation though Government's fund is very much required for marketing of MICE 	<ul style="list-style-type: none"> ✓ May be good as a starting point but needs to be monitored and expanded with the increasing demand. ✓ Initial investment would be high and needs to recruit right professional from open market 	<ul style="list-style-type: none"> • It is proposed that ICPB proceeds this Destination Specific Structure as it takes care of promoting India as MICE destination • The proposed structure will plug the gap of the current system.

k) Roles and Responsibilities

i) Of the Organization

The roles and responsibilities of the organization are as described in the ensuing paragraphs:-

- ✓ **Empanelment related**
 - ICPB to empanel service providers like PCO's, Travel Agencies, Destination Management companies, Hotels, Venues, Airlines, Tour Operators etc. with an one time empanelment fees.
- ✓ **Structure related**
 - ICPB members to elect the board as they are doing currently
 - ICPB Board to recommend names of eminent experts in this field
- ✓ **Endorsement related**
 - Any international inbound event happening in India has to be endorsed by ICPB otherwise licenses and permissions have to be arranged by PCO's on their one
 - In case the event is done in accordance with ICPB, ICPB takes care of issues like Visa, liaison with Government departments for sponsored dinners etc. This cost will be covered in the Service fee that is going to be charged from the PCO.
- ✓ **Bidding Related**
 - Any MICE activity has to be routed through ICPB
 - It has to depart from its' current membership based model – source of revenue has been elaborated later
 - ICPB Intelligence team to alert the bid manager about upcoming event
 - Bid manager to ask from the board about recommendations on empanelled PCO's capable of handling activity
 - ICPB Board to decide on the location on which to conduct the event
 - Shortlist panel of PCO's whose experience may be utilized in the bid
 - Win the Bid and conduct a similar bidding process internally
 - Select the best PCO to conduct the event
 - Charge a service fee from the winning PCO
 - Any savings made from the external bid will also be utilized to boost up corpus of ICPB

ii) Of the Manpower

The roles and responsibilities of the proposed manpower are as described in the ensuing paragraphs:-

Assumption:-

- No. of meetings to grow @ 10% per annum
- Salary revision @ 10% per annum
- India tourism offices in different parts of India and abroad to be used as ICPB establishment
- Some work either to be outsourced or to be filled in with employees deputed from Ministry of Tourism offices. However, any and every role in ICPB has to be a full time affair.
- Corpus/ Savings should be ploughed back to the Marketing expenditure to look for greener pastures.

m) Proposed Promotional Strategies

i) Action Plan

The tentative action plan for the revamped ICPB shall be as follows:-
